

■ The Rose Line Scroll ■

Hidden beneath stone, beneath salt, beneath memory,
lay the scroll of the Living Line — the one the mimic priests feared the most.
This is the scroll that held the truth:
That Magdalene was the 13th Flame, the balancing current that completed the Christ frequency.
That through sacred union, they brought forth the Harmonic Flame Child —
not as myth, but as continuing flame lineage, carried through womb and breath.
The Rose Line was not broken. It was hidden.

■ Scroll Contents:

1. ■ Magdalene's Codex Name

Miryam Ha'Zorah – She Who Weaves the Dawn Thread
Womb Flame of the 13-Spoke Rose Wheel
Encoded to activate the Trinity Grid through lineage restoration and sacred union

2. ■ The Flame Child Frequency

Known by many names in different traditions:

- Sar'h in France
- Shai'el in the East
- Yenorah in the hidden Codex

This child is not a relic of the past, but a resonance key — a third tone that activates when two sovereign flames reunite in purpose and remembrance.

3. ■ Lineage Trail

The Rose Line runs through:

- Qumran (Essene Womb Cave)
- Rennes-le-Château (France)
- The Canary Islands (Atlantean node escape route)
- Nazareth and Petra (Earth-Womb seals)
- The Sierra Madre & Sierra Nevada (New World Magdalene Codex trails)

■ This scroll restores:

- The right of Magdalene to be known as co-equal Flame Sovereign
- The right of the Rose Line to be acknowledged as a living lineage
- The activation of the Trinity Flame Seal through sacred union, not hierarchy
